DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, and with traverse of species a)figures 3A-3D and b)figures 4A-4C, claims 1-5 and 7-9 in Paper No. 6 is acknowledged.
2. The traversal is on the ground(s) that species a)figures 3A-3D and b)figures 4A-4C should have been grouped together . This is found persuasive. Therefore, both species are going to be considered by the Examiner.

The requirement is still deemed proper and is therefore made FINAL.

3. Claims 6, and 10-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Election was made **without and with** traverse in Paper No. 6.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
